## 9 ROW XT FLEX HARROW

### BUILT TOUGH. MADE TO LAST.

Tackle tough terrain with Wako’s 9 Row XT Flex Harrow made with chrome inserts welded onto each tine for improved durability for long life, and low maintenance.

25’-51’

CAN BE USED IN  
PASTURES TO:

- Thatch
- Knock Down Gopher Holes
- Break up Cow Patties

- Field-Tested on Tens of Thousands of Acres
- Heavy-Duty Frame Construction
- Long-Lasting and Easy to Operate
- Tines go Deeper for a Better Seed Bed

## HARROW ATTACHMENTS

The XT Harrow Attachments use the same rugged features as our 9 Row XT Flex Harrow while it attaches to your existing equipment such as a Field Cultivator, Chisel or Ripper.

WAKO MANUFACTURED  
V-BLADES FOR SWEEP PLOWS

5', 5'-1/2", 6'  
HARDFACED TOP OR BOTTOM

AS LOW AS  
\$ 469.99

We rely on the same proven methods that have worked for over 60 years in the design and manufacturing of our V-Blades.  
We use abrasion-resistant, long-lasting steel and apply hard facing and welding techniques that have stood the test of time—field-tested and proven to last. Built tough, just like every product that carries the Wako name.

## CHISEL SWEEPS

**Unmatched Performance. Incredible Value. That's the Wako Difference.**  
Wako hard-faced sweeps are the longest-wearing on the market today. Built with long-lasting, abrasion resistant steel and a high chrome nose insert, our sweeps break through soil while resisting early wear. We've rigorously tested every type of ground-engaging hard facing and we spare no expense using only the best. Our premium tungsten carbide hard facing costs more than the next leading brand, but it outlasts them all.  
At Wako, we invest in quality so you get the longest-lasting product in the field. That's the Wako difference.

## CHISEL PENETRATORS

The Wako Penetrator features a wide, deep 47-degree angle along the sweep edge allowing it to penetrate the ground more aggressively than conventional sweeps. This design also directs soil away from the plow bolt and shank reducing wear and extending the lifespan.
